1. **Company Profile :** This is the home page for Company Member when he/she logged in. From this section company member can see all data which he/she entered in edit profile section. [Refer Fig 1.1].

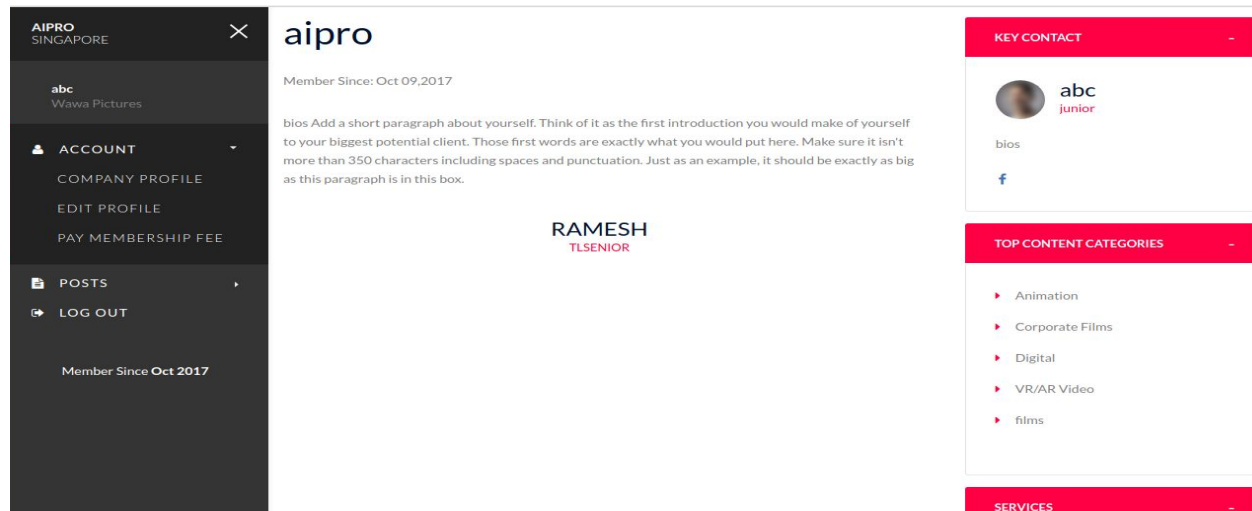

Fig 1.1

2. **Edit Profile section :** By selecting the given options i.e. edit profile ,It has two sections in which work has been done.

i)**Company details**:-It will be opened as by default . This section include fields with validated requirements , that are must to be filled .These fields are used to collect the information regarding the company i.e. company name,url,address ,etc.[Refer Fig 2.1]

Fig 2.1

ii)**Member details**:-This tab needs to be clicked for viewing. This section include fields with validated requirements , that are must to be filled . These fields are used to collect the information regarding the member(user) i.e. name,surname,email address ,etc.[Refer Fig 2.2]

Fig 2.2

3. **Feature :** By Selecting the posts option a dropdown arise in which we have feature1,feature2,feature3 section ,when we click on any of section it displays information which has been given in edit feature section . [Refer Fig 3.1]

Fig 3.1

-**Edit feature** :-When we click on edit features it will consist of fields which have been validated so the user doesn't give wrong information or there are some fields that are must to be filled. [Refer Fig 3.2]

Fig 3.2

The Feature2 and Feature3 sections are same as the Feature1 and properties are also same (i.e) validated fields.
